

## **EVENSPREAD ADCAM®750** **TRAVELLING IRRIGATOR**

**This irrigator was chosen by AgResearch for its Tokanui Research farm.**

- Low application rate irrigator, depths down to 6mm
- Distribution Uniformity 1.18
- Spread – 20-35m dependent on pump pressure
- Pressure required 30psi at irrigator
- Chassis Length 2.0m , Chassis Width 1.5m
- Boom diameter 8.0m
- Booms - one long and one short enabling evenspread pattern
- Quick release nozzles
- Flanged booms for extra strength
- Patented adjustable cam giving seven easily selected speeds/application depths
- Wirerope winder to wind rope evenly back onto winchdrum
- Double ratchet drive for even load
- Bushes - heavy duty bronze
- Winch drum brake
- Wide use of Stainless steel for pawls, shafts and handles
- Tow bar - removable
- Inlet - 2" BSP thread
- Wirerope - 4mm galvanised, std length 250m
