

NUMEDIC

superior dairy technology

evenSPREAD

Even spread, even more **production!**

With the **EVENSREAD** Travelling Irrigator

Innovative boom design
for improved spread

**UNIQUE SHORT
AND LONG ARM
BOOM DESIGN FOR
IMPROVED SPREAD**

Tough
galvanised
construction

Patented
adjustable cam
with 7 speeds

You want to do the job right. Proper effluent spreading means you can save on fertiliser and you don't have to worry about environmental compliance.

You want an irrigator with an even spread pattern and low application depth that is built to last. The Numedic EVENSREAD delivers on all counts.

TRAVELLING IRRIGATOR

Light and even effluent application

Use the EVENSPREAD to make the most of dairy effluent on your farm. It's strong, simple to use, and more accurate than ever.

- > **NEW BOOM DESIGN**
Clever short & long arm boom for more even, controlled spread
- > **LOW APPLICATION DEPTH**
Depths as low as 6mm can be achieved, maximising effluent nutrient utilisation
- > **7 SPEED**
Patented cam technology enables easy speed selection
- > **TOUGH CONSTRUCTION**
Galvanised A-frame chassis, heavy-duty bearings and rugged bronze bushes

- > **DOUBLE RATCHET DRIVE SYSTEM**
Even load distribution on winch drum
- > **TOP PERFORMANCE**
7m boom length and high performance nozzles that spread 20-35m depending on pressure
- > **LONG TRAVEL DISTANCE**
Wire rope can be increased from 250m to 400m
- > **INNOVATIVE WINDER**
Ensures the wire rope winds evenly thus reducing wear

ALL NUMEDIC PRODUCTS COME WITH A 1YR GUARANTEE!
